## Invest in your child's education

For over twenty-five years the Los Altos School District (LASD) parent community has sustained its tradition of filling the gap between the bare bones large-class-size curricula which could be funded through the state's public education funding, and the award-winning and enriched smaller-class-size curricula which we demand for our children. LASD parents foster our high quality educational experience through their support of their school's PTA and through their annual contributions to the Los Altos Educational Foundation (LAEF). To preserve this excellence in education, **please renew your investment in your student's education by making your 2008-2009 school year contribution to LAEF today.** LAEF contributions will fund the 2008-2009 programs outlined below, which were established and prioritized based upon input and feedback from parents, teachers, and district staff interviews and surveys.
