

Where in the world is.....?

It's a Wonderful World - but we know so little about it!

We want to learn more about it and would love it if you [or a friend] would share some of your knowledge about a piece of our Wonderful World with us.

Small groups of parents could get together, too, and help us learn more about either their own country or a country they are very familiar with.

We want students at Santa Rita to understand our world.

Questions you might have:-

What would I [or my friends] do? You would make a short presentation [about 15mins] to a class of students. You'll be given lots of help in working out a suitable presentation. This might mean making something, watching a short video clip or being shown how to wear a traditional costume. We have lots of different ideas for you! You'd repeat this same presentation three times during the morning.

When is this? Friday, April 9 from 10:30 -12:00

Could I/we do something other than a presentation?

Yes, you might want to teach a dance from another country for our afternoon program on Thursday, April 8 from 1 - 2p.m.
